Laying natural stone with the PCI Carra product line

## New PCI brochure on the reliable laying of natural stones

**Augsburg, February 7, 2022 – PCI has published a new, application-oriented overall brochure for the laying and grouting of natural stone dealing with the specific requirements of each natural stone and the different types of substrates. With this, PCI provides customers from trade and crafts with another tool to make advice and product selection as easy as possible in practice.**

When laying and grouting natural stone, it is essential that the quality and specific properties of the materials used are matched to the particular requirements of the natural stone in question. Therefore, precise knowledge of materials and processing is important during installation.

The new brochure "Natural talents - the PCI Carra line" covers everything from stone classification and special application problems and how to avoid them to laying instructions for various substrates and application situations with the respective PCI system recommendations. This makes the new reference book the ideal guide to ensure that natural stones are laid permanently reliable without discoloration and efflorescence.

The focus of the content is on the different application situations when laying natural stones, divided into indoor and outdoor areas, and the corresponding product and system solutions of the PCI Carra line. Whether on wooden substrates, heated screed, in wet areas or on balconies and terraces - the

structure and the individual processing steps are described in an easy-to-understand manner for each topic and combined with a matching PCI system recommendation.

The new brochure is completed by technical information and tips for protection against efflorescence, discoloration and deformation, a tabular overview with application recommendations depending on the type of stone used and a compact product overview with the right PCI products for each individual processing step.

The brochure “Natural talents – the PCI Carra line” can be downloaded from [www.pci-augsburg.de](http://www.pci-augsburg.de) in the Services/ Downloads area.
